

MS and ME ChE or BME Thesis Options

To open discussion for your role as a MS student in the Stoppel Lab, please email Dr. Stoppel at whitney.stoppel@ufl.edu with the answers to the following questions, your CV, and your current course schedule. Please make sure the subject line on your email reads "Interested in a MS Thesis: LastName, First Name" and that all documents attached to the email have your name in the file name.

Please answer the following questions:

1. Why are you interested in doing a MS thesis?
2. What are your career plans as of right now?
3. How does completing a MS thesis help your current career goals?
4. What do you hope to learn during your MS thesis?
5. What are you looking for in a lab?
6. What types of things interest you?
7. What skill sets do you already have that might be useful to the lab?
8. What do you anticipate your major challenges to be in the completion of your MS thesis?
